

A simple pond or lake bed diffuser set up consisting of:

1. Low energy Linear Air Blower
2. Custom weighted diffuser from AAG
3. Self-Sink Air Hose

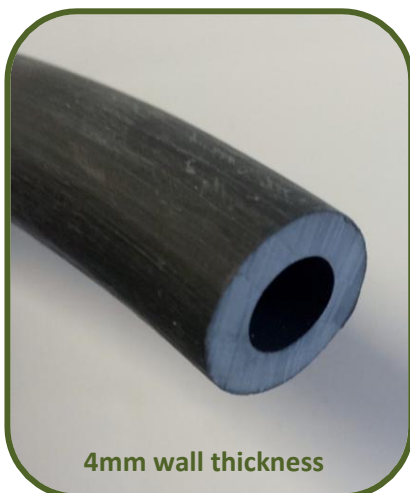

Benefits of Self-Sink Air Hose:

- Very easy to install or add to existing system
- No additional weights required to sink hose
- Dark, discreet colour
- Extremely robust construction

Self-Sink Air Hose from **AAG** is a new self-sinking air delivery hose made in the UK. It is very supply and will sink to the bed of the pond or lake, eliminating the need for any additional weights.

Black in colour, it will blend into the pond or lake bed for a discreet, tidy installation. Made from a PVC based compound it has a high resistance to UV light and resists kinking and cracking.

- Σ **Inside diameter *15mm**
- Σ **Outside diameter *28mm**
- Σ **Braided for strength**
- Σ **30m coils as standard**
- Σ **Approx. 350g per m**
